

For reduced stopping distance there's simply no better...

**ABSOLUTE
STOPPING POWER**

PROVEN PERFORMANCE

Highest level of braking performance

Bendix Ultimate brake pads are specially formulated to offer high friction, high temperature tolerance and a measurably better performance across a range of braking conditions. They have exceptional stopping power giving you shorter stopping distances and a significant resistance to brake fade at high temperature.

Ultimate pads are recommended for fitment to front and rear to maintain balanced driving, for sports, performance and prestige vehicles. There is a reference to suit most high performance European, Japanese and Australian cars.

Ultimate pads are totally responsive to your driving style and provide total control. They offer excellent pedal feel and are ideal for energetic driving styles, competition and high speed touring and freeway driving.

ABSOLUTE STOPPING POWER

PROVEN PERFORMANCE

Proven & tested under high performance braking conditions

Bendix Ultimate is tested using High Performance Certification (HPC). Under these standards, Ultimate delivers proven reduced stopping distances, excellent pedal feel and tolerance of extreme temperatures to provide total control.

Absolute Stopping Power

Bendix Ultimate has been rated in lab and road tests against leading brake pads from around the world. The results are outstanding on every level. Ultimate consistently performs under all conditions delivering solid pedal feel from the first stop to the last with minimal fade.

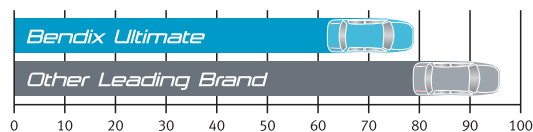

Recommended Driving Use:

- FREEWAY
- COMPETITION
- HIGH SPEED TOURING

Stopping performance safety test

Hot Stopping Comparison*

*Stopping distance (m) from 100km/h with 5 MPa line pressure. "Hot" stopping distance calculated after ten consecutive 0.5g deceleration stops from 100km/h during B8E4-55 Dynamometer Standard Performance Test.
